Home Decorating & Take Down

GIFT BASKETS

We are energized by creating distinctive and unique gift baskets. Each basket is one of a kind and thoughtfully personalized to the specific recipient.

We want our creations to be memorable and full of useful items. When we incorporate edible goods, we do our best to support Canadian based organizations.

If you want to present a gift basket that is exclusive, elegant & unique, we are the creative architects for you.

"We just got home this morning from our Christmas holiday and are thrilled to arrive to a perfect home."

"Thank so much for handling everything while we were away. It is so nice to get home after a long trip and not worry about doing anything other than relaxing."

Sam & Jacqueline Corea

"We engage Time Is Money to assist with coming up with new and diverse ideas for our employee thank-you gestures. We have diverse employee groups in several locations and thus each gift requires different and distinctive themes.

Recently we needed a fresh idea for our employee Christmas gifts. Time Is Money was able to suggest unique and thoughtful alternatives, which we would not have come up with on our own.

They definitely think outside of the box and work hard to understand the recipient, to come up with gifts that truly make an impression and are appreciated by all parties."

Bruce C.

"I've had Time Is Money pull together gift baskets for me over the last several years.

Not only is each basket an original (you won't find any others like them in the city) and custom made, but they are spectacular!

From the contents to the packaging, I simply wouldn't go anywhere else to order a gift basket."
