

Summer is here! **WE WORK, YOU PLAY**

(Let us be your best kept secret)

Time to RELAX: The New "IT" Word: STAYCATION

Rediscover Calgary and Alberta. Be a tourist in our own backyard and save money. Some of our favourite Calgary STAYCATION ideas:

- 1) Create a mini Amazing Race around the city or make it more interesting and organize a scavenger hunt around Alberta over an entire weekend with fun pit-stops!
- 2) Treat the family to Peter's Drive In or My Favorite Ice Creme Shoppe.
- 3) Pack a picnic and enjoy Shakespeare in the Park for an evening.
- 4) Grab a blanket and a magazine and hang out at Stanley Park or Crescent Heights Ridge.
- 5) Rent a convertible for the day!

Time to LEARN: How to Stretch 24 hours

No matter how we slice it, no one (not even the smartest person or most talented magician) has discovered how to squeeze more than 24 hours out of one day. Here are some tips we use to ensure we are productive and we accomplish everything we want on time.

- 1) Track your daily activities for a week, to see what you actually do each day and where are your productivity gaps. Ensure you are not a TIME WASTER.
- 2) Set a personal time management goal EACH week, i.e. limit web surfing to 1 hour.
- 3) Use a time management program or tool. I still live and die by my DAY-TIMER.
- 4) Prioritize for the day AND the week. Make "TO-DO" lists and revise them often.
- 5) Set time limits for tasks. If you have not accomplished it in that time, move to the next task, and come back to the unfinished task later.
- 6) Do your least favourite task first thing in the morning. Get them over with so you can't procrastinate.
- 7) Look for efficiency short-cuts and ways to multi-task. Draft an email while waiting for the dentist, etc.

No Idea What We Do? WE TRULY DO EVERYTHING!
